Hi John - Per our discussion earlier today, attached is the 2002 SDWA Section 1431 order among EPA Regions 3 and 5 and DuPont. I have also attached the 2002 press release. These are both in PDF format and are final. I also attached the 2006 press release and 2006 fact sheet, but I do not have them in PDF, and I would like to give R3 the opportunity to search their files for PDF copies. **Roger, can you see if you have hard copy or final PDF electronic copies of any fact sheet that accompanied the 2002 order, and the final fact sheet for the 2006 order? If you have the final press release for the 2006 order, that would also be helpful.** For prior orders, R3 has had the lead for press and fact sheet releases. Will that continue for the anticipated 2016 order?

John - I will be in touch about the fact sheet item that we discussed earlier. Thanks-Jacquie

Jacqueline Clark

Importance: High

Jacqui, Mike and Jeff-as you'll see, the DuPont section on the draft web page has a broken link for the 2006 and 2009 settlement info. I think that page may have been taken down because it contained duplicate info, but we now no longer have those documents posted to my knowledge-Leslie was able to get copies of the 2009 order and a fact sheet, but I'm not sure we have a copy of the 2006 settlement.

Do you think it works if we post the attached fact sheet and order to this page for the DuPont cases (along with the 2006 order if we have it), but adding some language to reflect the updates at the sites?

Thanks,
John

Subject: For review ASAP: PFAS enforcement web content

Importance: High

All,

The Office of Web Communications here at HQ is updating all PFAS web content over the next few days and is asking for OECA and the relevant regions to review the language related to the PFAS "enforcing environmental laws" section of [this draft web page](#), which is currently only posted internally, but will be made public later in the week. (To access this page, you will first likely need to go to <https://wcms.epa.gov/user> and enter your LAN ID and password and then refresh the initial link.)

As you'll see, the case list comprises two drinking water cases at Air Force bases (in Regions 1 and 3) and the DuPont case. I'm not sure whether FFEO or the regions have more familiarity with the AFB cases, so I'm including contacts from both on this email (Dave Deegan and Mike D'Andrea are my counterparts in Rs 1 and 3; Rich Albores and Sally Dalzell are from the federal facilities program here at HQ). I know that Jacqui Clark in R5 has expertise on the DuPont case.

Please let me know ASAP if you see any major issues with this content (i.e. incomplete cases list, major factual inaccuracies, etc.) and Leslie Davies-Hilliard or I can communicate that to the web office. (We are already aware of one broken link in the DuPont section that needs to be fixed.)

Otherwise, please review the draft web page (text is also attached in a Word doc) and send me and Leslie any comments you have in tracked changes by COB tomorrow so we can provide a final set of edits to the web office Wednesday morning.

Please feel free to call me in the meantime if you have any questions or want to chat about any of this.

Thanks,
John
